

REMARKS

Claims 1-51 are currently pending in this application. Claims 17-21 and 40-44 have been withdrawn as drawn to a nonelected species. Upon allowance of a generic claim, Applicants will request rejoinder of withdrawn Claims 17-21 and 40-44 to nonelected species. Claims 48-51 have been canceled as drawn to a nonelected invention. Applicants reserve the ability to pursue the canceled claims or similar claims in one or more continuation or divisional applications. Claim 26 has been amended. Support for the amendment is found in the specification and claims as filed.

Restriction Requirement

A Restriction Requirement has been imposed. In connection therewith, it is asserted that the claims are drawn to the following inventions: Group I, including Claims 1-47, drawn to a biointerface membrane having two domains, classified in class 600, subclass 309; and Group II, including Claims 48-51, drawn to a biointerface membrane that permits tissue ingrowth, classified in Class 600, subclass 309. Applicants hereby elect, without traverse and without prejudice, the invention of Group I, including Claims 1-47, drawn to a biointerface membrane having two domains.

Applicants have been required to elect one species with regard to Group I: A) an analyte sensor; B) a cell transplantation device; C) a drug delivery device; D) an electrical signal measuring device; and E) an electrical pulse delivering device. Applicants hereby elect species A) an analyte measuring device. Claims 15, 16, 22-25, 39 and 45-47 read on the elected species. Claims 1-14 are generic to the elected species.

No Disclaimers or Disavowals

Although the present communication may include alterations to the application or claims, or characterizations of claim scope or referenced art, the Applicants are not conceding in this application that previously pending claims are not patentable over the cited references. Rather, any alterations or characterizations are being made to facilitate expeditious prosecution of this application. The Applicants reserve the right to pursue at a later date any previously pending or other broader or narrower claims that capture any subject matter supported by the present disclosure, including subject matter found to be specifically disclaimed herein or by any prior prosecution. Accordingly, reviewers of this or any parent, child or related prosecution history

Application No.: 10/768,889
Filing Date: January 29, 2004

shall not reasonably infer that the Applicants have made any disclaimers or disavowals of any subject matter supported by the present application.

Co-Pending Applications of Assignee

Applicant wishes to draw the Examiner's attention to the following patents and co-pending applications of the present application's assignee.

Conclusion

In view of the foregoing amendments and remarks, it is respectfully submitted that the present application is in condition for allowance. Should the Examiner have any remaining concerns that might prevent the prompt allowance of the application, the Examiner is respectfully invited to contact the undersigned at the telephone number below.

Application No.: 10/768,889
Filing Date: January 29, 2004

Please charge any additional fees, including any fees for additional extension of time, or credit overpayment to Deposit Account No. 11-1410.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
